

CDRlive[®] DATA HEALTH AND QUALITY

Data Health and Quality forms part of the Analytics solution. It ensures that Telco analytics are delivered to operators reliably and effectively through automated monitoring.

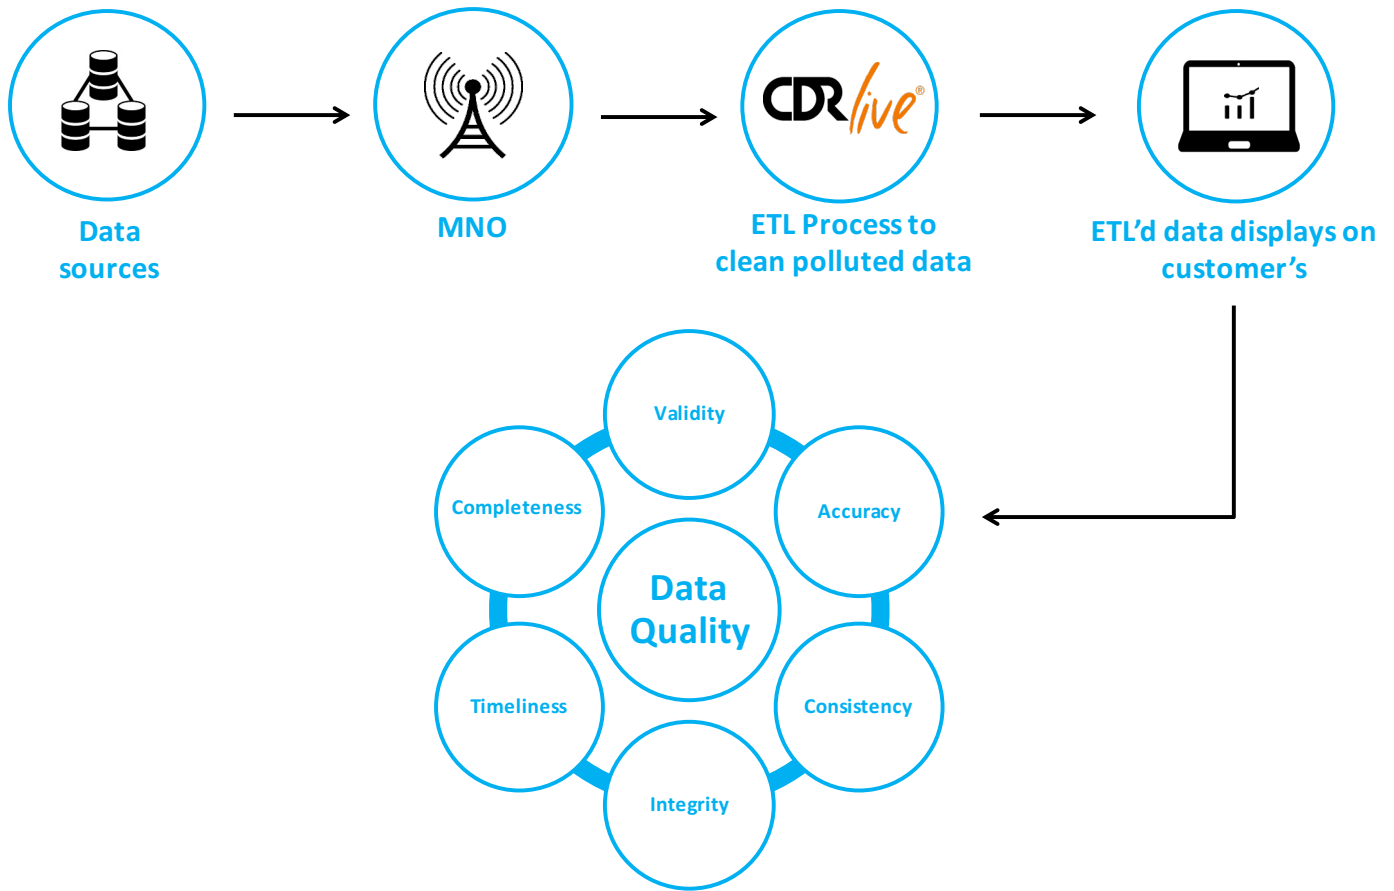

Key Features:

- ✓ Draws on all relevant network data and information (billing, customer and Call Data Records (CDRs).
- ✓ Translates normalized meta data into comprehensive and accurate results.
- ✓ Automates exception handling, reporting and escalation.
- ✓ Provides visibility into KPI health and how up to date it is.
- ✓ Provides file and record sequence validation to ascertain source systems health.

Benefits:

- ✓ Provides a summary of all the various data sources, in one consolidated view.
- ✓ Provides dates of when the source was recorded, and when the summary was created.
- ✓ Indicates the period of lag for source data.
- ✓ Status and error messages are displayed where relevant so that system faults can be addressed timeously.

How it Works:
