

MOBILE DEVICE MANAGEMENT (MDM)

Mobile Device Management (MDM) is part of the IoT solution, and connects your organization's mobile devices to your company network. An authorized MDM Administrator can manage, control and locate any device with the company's MDM fleet anywhere, any time.

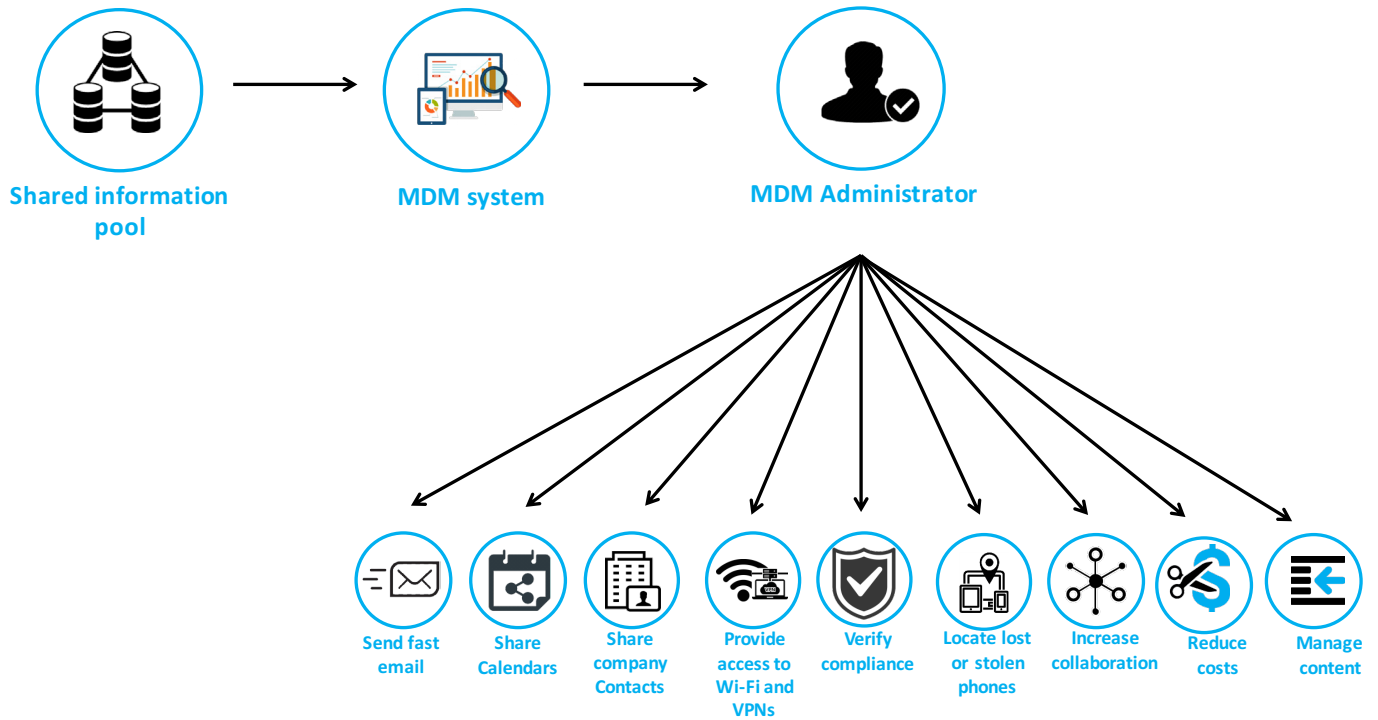

Key Features:

- ✔ Provides fast access to business e-mails, shared calendars and company contacts.
- ✔ Provides automatic access to the corporate Wi-Fi and Virtual Private Networks (VPNs).
- ✔ Verifies compliance with corporate security policies and procedures.
- ✔ Locates lost or stolen phones.

Benefits:

- ✔ Increases collaboration between the organization and its roaming employees.
- ✔ Reduces expenses incurred when employees use company resources for private purposes.
- ✔ Increases control over the type of content available on company devices.

How it Works:
