

Please Call Me is part of the VAS USSD solution, which enables the device user to send a free SMS message to the recipient to call him.

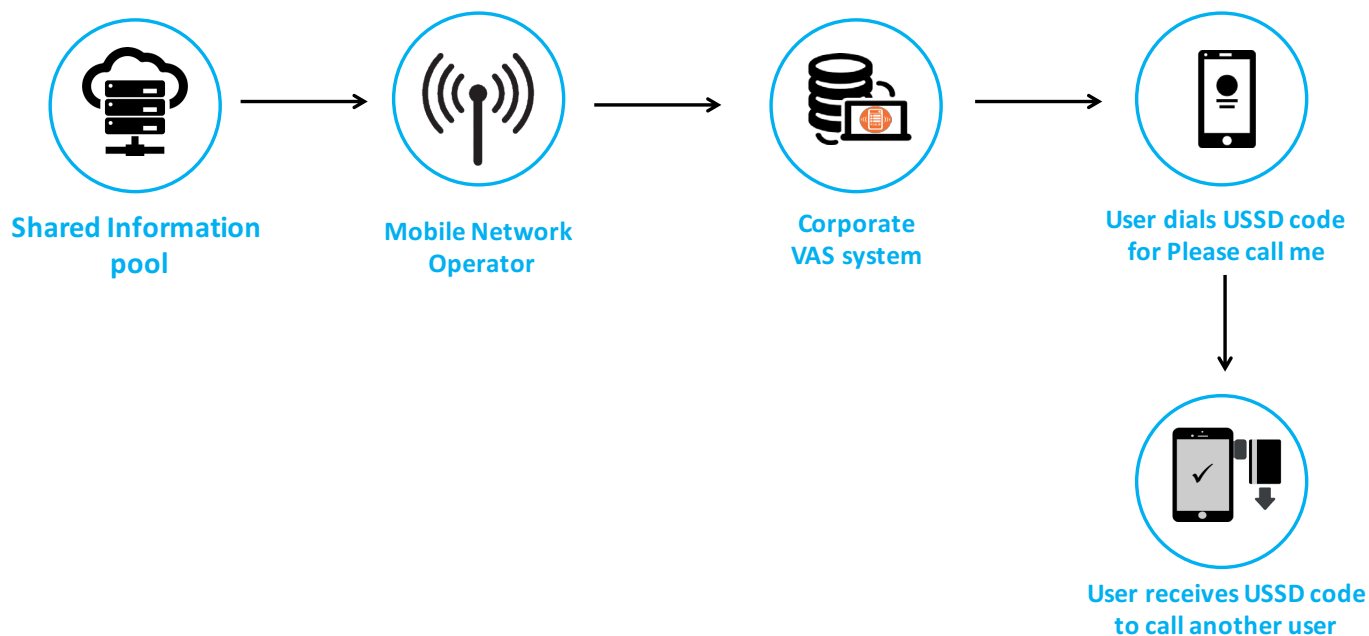

Key Features:

- ✓ Being a GSM-based technology, this service does not require Internet connectivity or data traffic to function.
- ✓ This solution is customizable and available through a USSD menu, which can be expanded to list other quick messages, including the Call Back option.

Benefits:

- ✓ The Please Call Me solution is faster than SMS.
- ✓ The PCM VAS solution requires no additional software downloads.
- ✓ This is a free service.

How it Works:
